

Freedom of Information Request – Biodiversity Net Gain

Date received – 15.02.23

Request & Response:

1. How much you are currently charging, or plan to charge, developers for offsite biodiversity units so that they can meet their biodiversity net gain requirements

We hope to have our own offsite scheme set up by November 2023 although we do not know at this stage how much we will be charging per unit.

2. What % of biodiversity net gain you are requiring, or expect to require, from developers

We will be seeking a minimum BNG of 10%.
