

Freedom of Information Request – Tree chopping

Date received – 01/05/23

Request & Response:

Please can I have the raw data set of how many trees have been chopped down by the council since the start of 2017, broken down by year.

2017 - 41

2018 - 17

2019 - 26

2020 - 47

2021 - 38

2022 – 61

2023 – 39

And after the council has received a request from an insurance company, how many trees have they chopped down because of this?

Unfortunately it is impossible to break this data down by felling reasons due to how the Ezytreev system operates. We very rarely have insurance/subsidence cases that involve Eastleigh Borough Council owned trees. We did fell 2 maple trees at Stoke Wood Close as a result of subsidence claim in October 2022.
