Dear Louise,

Further to your email request on 24 November, I am writing as the coordinator for Action against Destructive Development (ADD) to provide you with a list of individuals and organisations that share our concerns about the soundness and implications of Eastleigh's Local Plan.

ADD is not a membership organisation and does not keep a list of individual supporters. However, over the last four years, thousands of people – locally and nationally (through petitions, fundraising and requests to receive our news) – and many organisations have expressed outright opposition to Eastleigh's draft Local Plan or made clear their concerns about specific aspects of it.

Given our determination to remain politically neutral and to maintain an open dialogue with each of the communities affected by Eastleigh's Plan, ADD has become an acknowledged mouthpiece for voicing these concerns.

Whilst the list below is far from exhaustive (not least because of the requirement to safeguard the personal data of individuals), those sharing our concerns include:

- Mims Davies, previously MP for Eastleigh (Con) – *just stood down (prior to General Election on 12 Dec)*
- Steve Brine, previously MP for Winchester (Con) – *standing for re-election*
- Sir George Hollingbery, previously MP for Meon Valley (Con) – *just stood down*
